

BOISE STATE UNIVERSITY

**CENTER FOR ORTHOPAEDIC AND
BIOMECHANICS RESEARCH**

National Biomechanics Day

April 7th, 2016

National Biomechanics Day will be the 2nd annual nation-wide Biomechanics event. In conjunction with the American Society of Biomechanics and many other Biomechanics Labs across the globe, Boise State University's Center for Orthopaedic & Biomechanics Research (COBR) will demonstrate how Biomechanics is used to better understand our world, as well as the impact it has on health and well-being. Through an agenda of activities involving force platforms, motion capture, EMG, and other biomechanical tools we invite you to come see COBR's individual and unique Biomechanics skills and capabilities.

When: 2:30 PM - 4:00 PM

**Where: Center for Orthopaedic &
Biomechanics Research (COBR)
Ron and Linda Yanke Family
Research Park
220 East Parkcenter Blvd.
Boise, Idaho 83706**
